

The Heat Inside

***StormRider* Temperature Controller** **USER INSTRUCTIONS**

WELCOME

Your high performance StormRider Temperature Controller has been designed to promote flexible use and maximum enjoyment of your EXO2 heated gear.

PRODUCT CONTENTS

- EXO2 StormRider Controller
- User Instructions

INSTALLATION

The StormRider Controller is easy to mount and operate. The controller mount is designed to fit onto the existing clutch cable mount or similar. For example, if using the clutch cable mount option, simply remove the top bolt from the clutch mount, pass it through the mounting plate and then refit the bolt back onto the clutch mount. The StormRider Controller can also be mounted to the frame, fairing or any other part of the bike which promotes safe operation of the vehicle and equipment.

The StormRider Controller connects to the battery via an inline 10 Amp fuse. The fused line is connected to the motorcycle battery positive terminal and the other connected to the battery negative terminal. The StormRider controller has an **ON / OFF** switch and a digital readout. The LED readout varies from 0 – 9 (0 = OFF (No Power), 1 = 50% Power and 9 = 100% Power). When first switched ON, the controller will default to the top level 9 (100% power) for fast warm up. The selector button on the front will cycle the power level to the desired setting. **THE CONTROLLER'S POSITIVE AND NEGATIVE LEADS MUST BE CONNECTED TO THE CORRESPONDING BATTERY TERMINALS TO INSURE PROPER OPERATION. THE FREQUENCY**

GENERATED BY ALTERNATIVE CONNECTIONS WILL INTERFERE WITH THE OPERATION OF THE CONTROLLER AND COULD VOID THE WARRANTY.

DO NOT REMOVE THE CONTROLLER'S BACKING PLATE FOR ANY REASON, AT ANY TIME.

WARRANTY

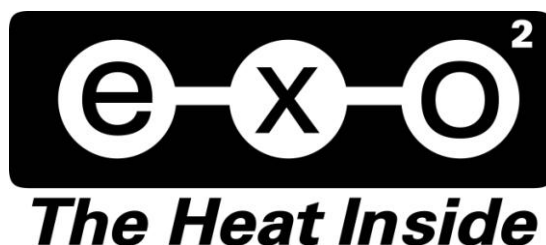

Every controller has a one-year warranty covering all electronic and mechanical failures. In the unlikely event that any part should fail within the first year, return it to us and we will repair or replace it free of charge. **Note: The warranty is void if alterations of any kind (including but not limited to the removal of the backing/mounting plate, replacement of cable terminals, etc.) are made to the controller. The warranty does not cover accidental damage or improper cleaning.**

TROUBLESHOOTING

What happens if my StormRider Controller does not work?

1. **DO NOT** attempt to replace or interfere with the electrical components of the controller.
2. Call EXO2 at **877-EXO2-HEAT** (877-396-2432) or email us at service@exo2.com to obtain a Return Merchandise Authorization Number (RMA#).
3. Return the unit to **EXO2 The Heat Inside** as instructed.
